

# DATASHEET TRIMBLE ACCUBID TIME AND MATERIAL BILLING

**EASILY MANAGE THE DETAILS ASSOCIATED WITH SERVICE-BASED COSTING, BILLING/INVOICING, AND MONITORING**

## YOUR SERVICE MANAGEMENT SOLUTION

Trimble Accubid Time and Material Billing, a companion module to the Classic Estimating Platform, allows service contractors the ability to easily manage the details associated with service-based costing, billing/invoicing, and monitoring. Key to the success of any service based business, the nuances with maintaining all aspects of your project details is now contained within a single, holistic solution---connected to your estimate for maximum productivity and transparency.

Time and Material Billing is a powerful, yet easy-to-use computerized billing system designed for service contractors. Designed with the capability to accurately cost your service work, Time and Material Billing offers many features specific to your business needs including; unique customer information and pricing, work order dispatch, invoicing and invoice e-mail, and the ability to monitor the day to day activities of your ongoing service work. Everything you need to track profitability and grow your business \_ all this plus a quick return on investment.

## CUSTOMIZATION

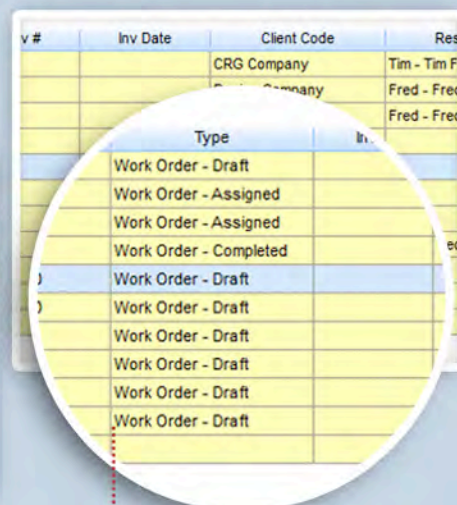

Each client you service has different expectations. You need a system flexible enough to customize each client and transaction to comply with their expectations. Time and Material Billing provides the flexibility where you need it most,,everywhere! Whether it's unique client information, custom invoicing per client, varying sales tax settings, sales tax summary reports, markups and overheads, labor to material ratios, or profits to date, Time and Material Billing affords you the opportunity to customize your client settings to meet your specialized service needs.

## MANAGE YOUR BUSINESS

Managing your business is a daily activity. Time and Material Billing maximizes your profit margins and improves your cash flow by streamlining the management process. You need instant information on time, all the time. Time and Material Billing provides the tools you need to easily measure and monitor your business activities at the stroke of a key. Simple questions such as, how many work orders are waiting to be invoiced? What are sales to date, profitability to date, sales taxes collected this quarter, sales per crew, labor to material ratios per client? With Time and Material Billing, the information is at your fingertips.

**WITH A WIDE SELECTION OF DATABASE SEARCH FEATURES, A USER CAN LOCATE ITEMS VIA CATALOG NUMBER, REFERENCE CODE, SUPPLIER'S CODE, OR A HOST OF OTHER FIELDS**

**STAY UP TO DATE ON YOUR PROJECT BY EASILY VIEWING THE STATUS OF ALL OPEN WORK ORDERS**

# TRIMBLE ACCUBID TIME AND MATERIAL BILLING

## Key Features

- Added Database Versatility - with a wide selection of database search features, a user can locate items via catalog number, reference code, supplier's code, or a host of other fields.
- Export to Accounting Packages - now more powerful than ever, jobs can be easily exported to a wide selection of popular accounting packages.
- Network Ready - with the added flexibility of multi-user support, Time and Material Billing offers users the ability to safely and easily share jobs, client data, and material databases with multiple users across a network.
- Quick Takeoff - perform a quick takeoff using custom quick codes that you can assign to frequently used items.
- Emailing - now with the added versatility of e-mail, work orders, quotes, and invoices can be e-mailed directly from the Time and Material Billing program.
